

BHARATH HEGDE

Lead Product Designer / UX Strategy Leader | Enterprise UX | Design Systems

Bengaluru, India | +91-7829262522 | bharathegde22@gmail.com | linkedin.com/in/bharathegde/

13+ yrs Experience | Enterprise UX | Design Systems | Research + Delivery

PROFESSIONAL SUMMARY

Enterprise UX and product design leader with 13+ years of experience delivering complex, scalable SaaS and workflow products across workforce management, biopharma automation, retail POS, mobility and analytics platforms. Known for owning 0-1 and scale design initiatives as an individual contributor, building design systems, simplifying role-based workflows and connecting research, product analytics and engineering feasibility into high-quality product outcomes.

CORE STRENGTHS

UX Strategy | Enterprise Product Design | Design Leadership | Role-Based Workflows | Information Architecture | Interaction Design | Research Synthesis | Usability Testing

Heuristic Evaluation | Design Systems | High-Fidelity UI | Interactive Prototypes | Agile UX | Stakeholder Management | GenAI Prototyping | Pendo / HEART

LEADERSHIP IMPACT HIGHLIGHTS

- Redesigned complex enterprise workflows, improving task completion by 25% and reducing user errors/support tickets by 30%.
- Improved design-development handoff by 20% through standardized components, tokenization and UX documentation practices.
- Established design standards for multi-role enterprise workflows, improving cross-functional alignment by 50%.
- Improved feature adoption by 8% through analytics-informed UX decisions and customer feedback loops.
- Built design systems and reusable patterns across ADP, Merck/BIO4C and ABB platform work, improving consistency and delivery speed.
- Introduced GenAI-driven prototyping through Figma AI and automation tools, improving exploration breadth and making prototyping 60% faster.

PROFESSIONAL EXPERIENCE

Lead UX - Individual Contributor | ADP India, Bengaluru | Apr 2023 - Present

- Lead complete UX lifecycle for a Time & Attendance web product across Employee, Manager, Admin and HR personas.
- Conduct user interviews, empathy mapping, journey mapping, heuristic evaluations and moderated usability testing to uncover workflow gaps.
- Design role-based experiences with clear IA, scalable task flows, wireframes, interactive prototypes and high-fidelity UI designs.
- Modernized a legacy enterprise product into a scalable, future-ready platform supporting global expansion needs.

- Collaborate with Product, Engineering and business stakeholders in Agile ceremonies, design demos and sprint-level execution.
- Reduce rework by validating concepts early through low/high fidelity prototypes, usability benchmarks and stakeholder feedback loops.
- Maintain UX documentation and component usage standards to ensure consistency across complex role-based flows.

Principal UX Analyst | ABB, Bengaluru | Jun 2022 - Mar 2023

- Led UX initiatives for Genix platform products including Model Fabric and OLM, improving enterprise workflow clarity.
- Facilitated stakeholder workshops, persona studies and top-task analysis for biopharma automation products.
- Standardized UI patterns and documentation to improve platform consistency and design-development alignment.

Senior UX Designer | Marlabs, Client: Merck India | Nov 2019 - May 2022

- Owned UX for BIO4C continuum across Orchestrator, CRS, IPB and Smart Mixer as an independent contributor.
- Built a unified design system across four products and partnered with Product, SMEs and Engineering on execution.
- Mentored junior designers and contributed to backlog grooming, design reviews and sprint delivery.

Lead UI/UX Designer & UX Developer | ITC Infotech, Client: Lowe's India | Nov 2017 - Oct 2019

- Designed a modern web-based POS platform migrated from legacy C++ systems, contributing to ~6% revenue growth post-launch.
- Delivered inventory and sales dashboards plus prototypes using HTML5, CSS3, SASS, Bootstrap, InVision and Zeplin.

UI/UX Designer & Developer | CAST Software | Aug 2016 - Oct 2017

- Designed data-intensive dashboards and revamped web experience, improving sign-ups by 50-75% and active users by 60%+.

Senior UI/UX Designer & Developer | Zoomcar | Oct 2014 - May 2016

- Redesigned core product flows and developed Home Delivery MVP, tariff UI and website redesign as an individual contributor.

UI/UX Designer & Developer / Associate Software Engineer | Launchyard Technologies / Intent Software | Feb 2013 - Oct 2014

- Designed and developed responsive web platforms from scratch in Agile teams.

EDUCATION, CERTIFICATION & RECOGNITION

- Product Management Certification - UpGrad, Nov 2018
- B.Tech, Information Science - BITM, VTU University, Bellary, 2007 - 2011
- Best Employee Award - Zoomcar, Lowes, CAST | Sequoia Hackathon participant for 2 consecutive years
